

WILLISTON STATE COLLEGE

GRAPHIC STANDARDS & USAGE GUIDE

December 9, 2015

Importance of Graphic Standards

The Williston State College logo was developed to represent WSC in a dynamic, easily recognizable and long-lasting fashion. By using the logo in a consistent and uniform manner, and adhering to these simple usage guidelines, you will help to grow it into one of the strongest symbols in the region, and also help to keep it that way.

The full logo is a combination mark containing a graphical “W” with a bar on both sides and the words “Williston State College” underneath on two lines. Except as noted, the full logo containing all elements are to be used at all times and treated as one graphic with no alterations.

The identity of WSC is affected by all visual materials so the consistent application of these standards is a necessary step to ensure a positive marketing strategy for WSC.

The standards are here to achieve two purposes:

- To fulfill the function for which the pieces is designed
- To maintain a positive identity for WSC

Logo Usage

The Office of the President has appointed the Marketing Department to monitor and guide the usage of the logo. All requests to use the logo should be directed to the Marketing Department.

Official Full Color Version

The full color logo with PMS 3308 (green) and PMS 424 (grey) is the WSC standard and should be used as often as possible. This should be used on a white background. In most cases it is preferable to use this logo.

Clear Space

The immediate area surrounding the Williston State College logo is to remain clean and free of other elements. This clear space is also the closest that the logo can be placed to the edge of a page — printed or online. This area can easily be determined by measuring from the top of “Williston” to the bottom of “State College” and using that measurement to compare to the top, bottom, left and right of the logo. A larger clear space measurement is acceptable, but a smaller measurement is not.

Minimum Size

The full logo is never to be used with a left-to-right width smaller than .75”.

Acceptable Color Variations

The Marketing Department will guide you regarding which logo is most appropriate for your purpose.

One-Color Version

When a one-color version of the logo is needed, either use the all-green (PMS 3308) or all-grey (PMS 424) version.

Black and White Version

When a black and white version of the logo is needed, use the all-black version.

White Logo

When the logo is printed in reverse, it should always be in plain white against a dark-enough background to be easily seen.

Simplified Logo Exception

In specific circumstances, the stylized “W” of the full logo can be used alone without the “Williston State College” portion of the full logo. Examples of this exception would be on items such as an official WSC baseball cap or banners. Approval of this exception would be determined on a case-by-case basis by the Marketing Department.
