# Program Evaluation

Taylor Gauthier  
3-16-2015

## Student Enrollment by Program

### Petroleum Production Technology

Name	Start Date	Grad Date	Degree
Kyle J Gerding	Fall 2013	Spring 2015	COC - Automation & Control Certificate - Automation & Control
John B Mendis	Fall 2013	2015	COC - Lease Operator, Automation & Control Certificate - Lease Operator
Emmanuel E Emlı	Fall 2013	2015	COC - Automation & Control, Lease Operator Certificate - Lease Operator
Nicholas Attigah	Fall 2012	Spring 2014	COC - Lease Operator
Ramiro da Costa	Fall 2013	Spring 2014	COC - Lease Operator, Automation & Control Certificate - Lease Operator, Automation & Control
Kyle W. Erickson	Fall 2013	Spring 2014	COC - Automation & Control Certificate - Automation & Control
Sheldon Wahlstrom	Fall 2013	Spring 2014	COC - Lease Operator Certificate - Lease Operator

### Residential Carpentry Technology

Name	Start Date	Grad Date	Degree
Donna M Mullen	Fall 2013	Spring 2014	Certificate

### Welding Technology

Name	Start Date	Grad Date	Degree
Jared Brueni	Fall 2011	Spring 2012	AAS
Derek McKeil	Spring 2011	Summer 2012	AAS
Timothy Hendrickson	Fall 2012	Fall 2012	Certificate
Seth Jorgenson	Fall 2011	Summer 2012	Certificate
James Rasmussen	Fall 2011	Summer 2012	Certificate

## Copy of Program Evaluation Survey

**Program of Study:** \_\_\_\_\_

**What was your employment status before completing the program?**

- Not employed
- Employed within field of study
- Employed outside field of study

**How would you rate the program overall?**

- Excellent
- Good
- Average
- Poor
- Very Poor

**What did you like about the program?**

**What did you dislike about the program?**

**Did you take the program to gain employment skills?**

- Yes
- No

**If yes, did the skills you learned in the program assist you with gaining employment?**

**What has been your employment status since completing the program?**

- Not employed
- Employed within field of study
- Employed outside field of study

## Petroleum Production Technology Responses

**What was your employment status before completing the program?**

Not employed	Employed within field	Employed outside field
1	4	2

**How would you rate the program overall?**

Excellent	Good	Average	Poor	Very Poor
2	3	1	0	0

One student responded “Good with Jerry”, “Average with Joe”

**What did you like about the program?**

- The program was great especially the Recovery & Production and Production methods classes. They were very informative helped me land a job at Baker Hughes straight out of school.
- Hands on approach during first year, enjoyed Roy as an instructor
- Jerry and his industry knowledge
- Everything, school hours, teachers
- Automation & Control
- Attractive, gave me the chance to “climb up the ladder”
- Not really anything

**What did you dislike about the program?**

- Not having enough employers that offer Co-op programs locally. (Students had to find their own companies to complete their Co-operative education class, at least I did. I believe the school should work on getting more local employers interested in this program so they will give students the opportunity to come work for them.)
- Joe’s instruction, wish I would have taken it at BSC second year because I didn’t get what I wanted from the program
- Wish WSC would bring more industry partners in, wish it would have been more detailed; WSC should invest more funding into program
- It was a new program, Jerry was great, Joe doesn’t know much about industry, having class at TRAIN ND was hard because my car was broke down this semester and sometimes I was unable to make it to class
- There was a lot of going back and forth between Automation & Control and Lease Operator. I wish they would have went more in depth into one area or the other.

**Did you take the program to gain employment skills?**

Yes	No
6	1

**If yes, did the skills you learned in the program assist you with gaining employment?**

- Yes
- Yes
- No, the employer didn't even know about the program or look at my certificate
- Yes, I completed an internship with Hess Corp. during the program for my co-op
- I don't know, I already had experience. It might have if I didn't already have experience.

**What has been your employment status since completing the program?**

<b>Not employed</b>	<b>Employed within field</b>	<b>Employed outside field</b>
2	5	0

## Residential Carpentry Technology Response

**What was your employment status before completing the program?**

- Retired

**How would you rate the program overall?**

- Excellent

**What did you like about the program?**

- Learned how to build a tiny house, Travis was excellent!

**What did you dislike about the program?**

- I would have liked more class options; masonry would be great

**Did you take the program to gain employment skills?**

- No

**If yes, did the skills you learned in the program assist you with gaining employment?**

**What has been your employment status since completing the program?**

- Retired

## Welding Technology Responses

**What was your employment status before completing the program?**

Not employed	Employed within field	Employed outside field
3	0	1

**How would you rate the program overall?**

Excellent	Good	Average	Poor	Very Poor
1	1	1	0	1

**What did you like about the program?**

- Good equipment
- The equipment, tools, and the facility were outstanding
- Teacher (Buck)
- Hands on, real-world setting, felt like it was in the field

**What did you dislike about the program?**

- Lack of one-on-one training
- The teacher was pathetic, completely useless, had zero motivation and poor skills (Buck Danner)
- Buck was never in the shop, he was always in his office, I didn't get respect, he was never available to help and was unable to perform when I asked for help, I was only certified for one weld even though I completed 5

**Did you take the program to gain employment skills?**

Yes	No
2	2

**If yes, did the skills you learned in the program assist you with gaining employment?**

- Yes
- No, didn't go into welding

**What has been your employment status since completing the program?**

Not employed	Employed within field	Employed outside field
0	3	1
