

Checking Your Address:

Make Sure it's Correct

It's important to make sure your address is correct because the business office sends paper bills by mail if you're taking dual credit classes. This means the bill goes to the address they have on file, so if it's wrong, you might not get it. You can always check your bill and other financial details online in Campus Connection.

1. Log into Campus Connection.
2. Go to Profile.

3. Then click Addresses.
 - a. Check the address to confirm if it's correct. You can click on the address to edit it if it's incorrect.
